### WHO ARE WE?

Seaworks Co was founded in Kuwait in 1991, as Mubarakia Marine Services Co., as a marine services contractor. We have expanded our activities to include Marine Construction, Ship Management, Heavy Equipment Rentals and Earthworks.

With the technology transfer scheme that the government of Kuwait had opted for; we initiated a long-term business plan to develop strong alliances with international companies for streamlining future projects in Kuwait. Our most notable relationship was established in 1996, with ITOCHU Corporation, a Japanese trading house, and this relationship developed into a very close strategic alliance for mutual business interests in Kuwait. This was further enhanced by establishing a long-t erm association with Tekfen Construction & Installation Company, and an agency agreement was signed in 2005 with Tekfen in Kuwait.

Our parent company, Khalil Mahmoud Trading & Contracting Est. (KME) was established in 1953, primarily as a civil engineering and construction company, and has been classified as a Grade II contractor by the Central Tenders Committee since 1971 for civil construction and electrical works, which is the highest category given to local contractors working in Kuwait as category I is for international contractors. KME is best known for developing the State of Kuwait's tenth district (Cities of Fahaheel, Ahmadi, Sabahiya, Mangaf, AbuHalifa, Fintas) by construction of housing & commercial projects as well as relevant municipal infrastructure. In addition, KME pioneered the development of farming and mass agricultural production in Kuwait by implementing horticultural farming in the Wafra area.

### **MISSION**

Seaworks is committed to provide world-class services that meet or exceed safety and environmental requirements as well as, customers' expectations, and to conduct its operations in a manner which upholds Safety, Health, Quality and Environment; both to property and human alike.

### The Company's Mission statement is:

"To set the standards for safe and environmental friendly goods and services in the Marine, Oil & Gas and Civil Industries with Motivated professionals and well-trained personnel."

The Company has set the following long-term aspirations and goals:

- Zero incidents / accidents
- Zero detentions

### **VISION**

Company's vision is to be a leader in the Marine Construction, Ship Management and Heavy Equipment fields, by promoting its safety culture and utilizing new technologies, consistent with its strategic goals and by realizing maximum efficiency through superior management.

### The Company's Vision statement is:

"To be the leading Company of choice for global Marine Construction."

The Company aims to reach these long-term aspirations and goals through continual improvement.

### SAFETY MISSION

To Develop and Promote a Culture of Compliance and Responsibility in Workplace Safety to all our Employees and Clients.

Being ISO 45000-2018 accredited reflects our management's commitment and constant emphasis on achieving a high degree of safety management.

### **QUALITY**

Seawork's commitment to providing its customers with the most reliable resources is reflected in its efforts to obtain the highest standards of independent assessment of its skills. This is evident from its ISO quality assurance certification and the extensive industry qualifications of its senior personnel, who have combined work experience.

### ACCREDITED BY:

ISO 9001:2015, ISO 14001:2015, ISO 45001:2018

# EXPERT IN MARINE CONSTRUCTION AND DREDGING

Seaworks WLL is an ISO-certified specialized Qatari Marine Construction and Dredging contractor, established in Qatar since July 2007, to serve the needs of this market as a local company as this type of work had always been performed by international contractors (mainly European). We are proud to have executed projects in other countries as a Qatari company, using our marine vessels carrying Qatari flags. We are committed to provide world-class services that meet or exceed the safety and environmental requirements of our Clients and to conduct our operations in a manner which upholds the highest standards with respect to Safety, Health, Quality and Environment; both to property and human alike.

### **Ship Management**

Seaworks is an independent marine-services provider offering a broad spectrum of high quality ship management and consultancy services for all types of marine vessels and offshore units

### **Heavy Equipment Rental**

We maintain a modern and dependable fleet of various earthmoving equipment, construction support equipment, lifting equipment with offshore cranes ranging up to 400-ton capacity.

### **Core Competencies:**

Seaworks is an expert and market I eader in the following activities

### **Marine Construction**

Seaworks is a leading marine civil engineering firm and renowned foreshore specialist in Kuwait and Qatar. Our services range from construction of revetment, seawall, breakwater, dredging and land reclamation works, and diving services. We are well-known in the industry for delivering high standards of quality and timely delivery for all our projects.

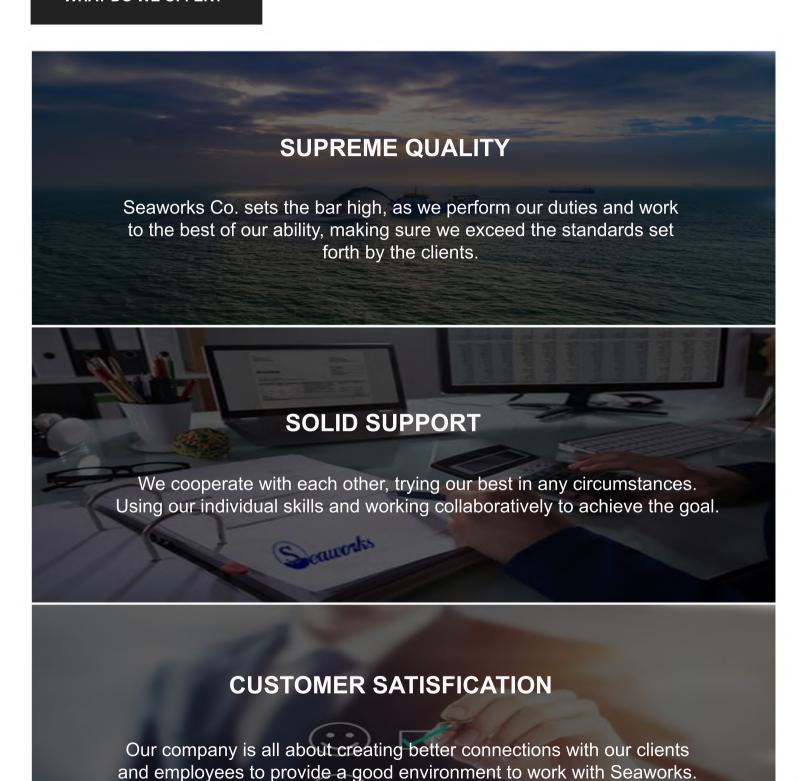

### **Earthworks**

Seaworks is a reliable contractor in excavation, trenching site preparation works, road construction and other earthworks.

### WHAT DO WE OFFER?

### **Comprehensive Service**

From strategy to execution, our winning combination of innovative thinking, scientific design, sophisticated development, and ongoing ensure we're delivering value to help you grow.

### MARINE CONSTRUCTION

Seaworks is a leading marine civil engineering firm and renowned foreshore specialist in Kuwait and Qatar. Our services range from revetment, seawall, breakwater, rock bund construction and maintenance to reclamation, dredging and diving services. We are well-known in the industry for delivering high standards of quality and timely delivery for all our projects.
